
REPEAT COURSES POLICY

Consistent with PAAE'S strategy of encouraging repetition and mastery of the materials, students are not prevented from repeating courses. When a course has been repeated:

1. The original course and grade stay on the transcript, but the credits for that course are indicated to be zero and the original grade for that course is excluded from the GPA calculation.
2. The repeated course is shown on the transcript with an "R" to indicate it was a repeat.
3. The credits earned from the repeated course were assigned to that course and that grade factored into the GPA calculation.
